

COAL BED NATURAL GAS RELATED SERVICES

Inter-Mountain Labs (IML) provides field and laboratory services designed specifically for the coal bed natural gas (CBNG) industry. IML assigns a Project Manager to each CBNG client to assure timely and complete delivery of services. IML provides professional services in the following areas:

Water Laboratory Analyses

- ✓ Inorganic Analyses
- ✓ Organic Analyses
- ✓ Trace Metal Analyses
- ✓ Bacteriological Analyses
- ✓ Radiochemistry

Soil Laboratory Analyses

- ✓ Soil Saturated Paste Extract Analysis
- pH, EC, Sat. %, SAR, Ca²⁺, Mg²⁺, Na⁺
- ✓ CEC and Exchangeable Cations
- ✓ Texture (% sand, silt, and clay)
- ✓ Fertility and Suitability Analyses

Evaluations

- ✓ Topsoil Verification
- ✓ Section 20 Compliance Investigations
- ✓ Order 1 Soil Surveys
- ✓ Infiltration Pond Reclamation

Field Sampling

- ✓ Surface Water, Outfalls
- ✓ Monitoring Wells
- ✓ Continuous Core Soil Sampling

Automated Measurement Systems

- ✓ Near Real-time Measurements
- ✓ Continuous Recording
- ✓ Na, Ca, pH, EC, Temperature, SAR
- ✓ Remote Data Access

Flexible Reporting

- ✓ Lab Reports Available in .xls, pdf, and Database Formats
- ✓ Custom Reporting Available
- ✓ Electronic DMR's
